Workshop

Clinical boundaries - sharing experience of health issues

Run by the Time to Change Action Group, this workshop will explore when and how health professionals could share their personal health experiences

The workshops will be held upstairs at:

10.30am - 11.15am

(including a performance about equalities)

2.15pm - 3pm

We'd like your views and experiences for a trust policy about professional relationships and boundaries regarding how staff interact with service users/patients.

How would you like your health professional/colleagues to act towards you? Is it helpful for staff to share some of their own experiences?

The workshops are open to all.

Please sign up to the workshops at the Lived Experience Network stall, or go upstairs 10 minutes before a workshop is due to begin.

BAM will perform a selection of their music today and you can have a go at playing music for yourself if you visit their stall

St Paul's Academy Choir

is a group of students who have a passion for music and love to sing as a gospel choir. The students have also been instrumental in helping us launch our innovative HeadScape website - a one-stop source of self-help on a range of mental health issues which can affect young people. We hope you enjoy the songs you hear today
