Ranking shows the LA's position where the highest diagnosis rate has the highest rank i.e. for England this would be 327

To see the impact of changes in the LA overall diagnosis rate please enter your diagnosis rate ambition in the box above.
• ‘Living well with dementia in Greenwich’ 2010-2015: commissioning strategy and action plan
• Dementia Implementation Group
Key Areas

• The enhancement of the Memory assessment service at the Memorial Hospital to support early referral diagnosis and treatment,
• Reduction in antipsychotic prescribing: work with Oxleas, GP's and care homes to review and reduce prescribing of anti-psychotics,
• Dementia training delivered by the Alzheimer's society in care homes and across emergency departments in QE
• The introduction of additional post diagnostic support to patients, relatives and carers through the Dementia Advisory service and Dementia Support Worker
Going Forward

• Improving the referral pathway through use of Referral and Booking Management System (RMBS)
• Current dementia CQUINs: Assuring dignity and nutrition on older adult Dementia wards; Improvements in early detection patient referrals from Primary care
• Review of the role of the Dementia Advisors and the part-time Dementia Support worker
• Information worker for Dementia -commissioned across health and social care to create a directory of services available to patients and carers
