

PHILOSOPHY OF CARE

Our philosophy of care as community immunisation nurses reflects the vision and values of Oxleas NHS Trust.

By working in partnership with families and carers we aim to provide an outstanding and diverse service to provide nursing care and improve the lives of babies, children and young people in the community of Greenwich.

We care for others as we would wish to be cared for ourselves that is with respect, dignity and empathy; acting at all times in the child's best interests.

We aim to meet every child's individual needs and be sensitive to the many factors which make them unique.

In an open and supportive environment the aim is to promote maximum communication whilst maintaining confidentiality.

We believe in taking pride in delivering high standards of care. We achieve this by: working closely as a team, sharing information and research; offering advice, valuing each other's opinions skills and expertise. This further develops staff and enhances our care; creating a proactive and innovative environment which promotes a culture of life-long learning.
